## ASSIGNMENT OVERVIEW

Assignment Title: 1271300 - Strengthening Regional Collaboration towards addressing impacts from mercury contamination in the Amazon

Assignment Countries:

- Brazil
- Colombia
- Peru

## ASSIGNMENT DESCRIPTION

The consultancy firm will be in charge of a set of knowledge activities to strengthen regional collaboration to counteract, remediate, restore and respond to the impacts of gold mining and the contamination from mercury use, with a focus on Brazil, Colombia and Peru Amazon region. This will be achieved by increased understanding of the regional dynamics associated with gold mining and mercury use, and the design of joint strategies to respond to this environmental threat. Activities will contribute to create a multistakeholder regional space for discussion, analysis, knowledge production, and advocacy, agreeing on a common strategy of prevention and response to mercury use in illegal gold mining in the region. Collaboration and knowledge will be promoted along key priority themes: mercury flows and the impacts from contamination, law enforcement and policy harmonization (vigilance and control), response capacity of communities to address contamination and its impacts.
